Let's Start Talking About FASD

What is FASD?

When a woman drinks alcohol during pregnancy there is a chance that her child may have a disability called Fetal Alcohol Spectrum Disorder (FASD). FASD describes a range of effects that can occur in those prenatally exposed to alcohol.

FASD Family Support Program

The FASD Family Support Program has been created to give families direct support in their daily lives. It is our hope that we can help to build healthy families and healthy communities. The program will aim to work with families and circles of support to gain positive outcomes for those living with FASD.

Healthy Families Healthy Communities

Healthy Families

The FASD Family Support Program offers ...

- **Toll Free Support Line**
1-866-673-3276 this number can be called to reach a Family Support Worker .
- **Monthly Family Support Meetings in Saskatoon** to widen circles of support.
- **“Know and Grow”** knowledge and networking for families living with FASD throughout the province.
- **One on One Support in Saskatoon** to help families build on strengths and face challenges.

Healthy Communities

The FASD Family Support Program will work with the community to....

- Share knowledge and resources with communities, organizations, and professionals.
- Help families access community supports.
- Support families with assessment and diagnosis.

About The FASD Support Network of Saskatchewan

The Network is a parent-led community organization.
We work to support families living with FASD across the province.

The FASD Support Network of Saskatchewan is pleased to now offer direct support to families in Saskatoon and area.
